

# TASMANIA'S HEALTH PLAN

## Statewide system development

### **SSD01 Alcohol and drugs action**

Develop closer links between primary health and alcohol and drug services. Increase access to alcohol and drug programs in rural areas.

### **SSD02 Primary mental health service development**

Extend primary mental health services through partnership developments, for example, through the Headspace project targeting youth mental health. Increase access to mental health programs in rural areas.

### **SSD03 Develop operational framework for the development of Integrated Care Centres (ICCs)**

Identify and define services for each level of ICCs, develop an operational framework for each level, as well as responsibility frameworks and service agreements through use of a working group, research of best practice, and communicate and engage stakeholders to develop ICCs around the state.

### **SSD04 Develop ICC Launceston**

Develop an ICC in the Launceston area.

### **SSD05 Develop ICC/GP Super Clinic Clarence/GP Super Clinic Sorell**

a) Develop an ICC/GP Super Clinic in Clarence

b) Work with Commonwealth and other stakeholders to develop a GP Super Clinic in the Sorell area.

### **SSD06 Develop ICC Kingborough**

Develop an ICC in the Kingston area.

### **SSD07 Develop ICC Hobart**

Develop an ICC in conjunction with the RHH Redevelopment Project.

### **SSD08 Develop ICC or Tier 3 CHC Glenorchy**

Assess the feasibility of developing an ICC in the Glenorchy area.

### **SSD09 Burnie GP Super Clinic**

Work with Commonwealth and other stakeholders to develop a GP Super Clinic in the Burnie area.

### **SSD10 Devonport GP Super Clinic**

Work with Commonwealth and other stakeholders to develop a GP Super Clinic in the Devonport area.

### **SSD11 Develop patient satisfaction/patient experience feedback mechanism**

Develop a process that provides patients with the mechanism to inform services about their satisfaction with their experience and monitors agency performance against standard measures.
