Getting started - integrated implementation planning

- In light of the integrated implementation plan:
 - Are there any activities that are missing from the implementation plan? If so what are they?
 - Is the sequencing of key activities feasible? If not what needs to change?
 - Are there any other matters that need to be flagged?

Regional access points and coordination

- What are the key issues that will need to be considered in the first stage of rolling out the reform program to establish regional access points?
- What is the best way to engage stakeholders in this process e.g. service providers, consumers, others?
- What are the key interdependencies with other parts of the reform program that will need to be actioned concurrently to ensure that the roll out is successful?
- Are there any other issues you would like to raise in relation to the implementation of the regional access points?
