

TASMANIA'S HEALTH PLAN

Integrating acute and primary health services

IAP01 Rural emergency response

Develop a rural accident and emergency response plan to support emergency response services in rural areas by developing an operational framework and protocols and engaging key stakeholders.

IAP02 Integrating primary and acute care through an Area Health Service structure

Develop consistency in service provision arrangements between primary and acute health around the state.

IAP03 Put the integration of primary and acute care into operation

- a) Improve coordination across the primary and acute service sectors through service changes and the development of new positions and processes to enhance coordination, access and patient information flow
- b) Implement regional projects in the South
- c) Implement regional projects in the North
- d) Implement regional projects in the North West.

IAP04 Single access point

Expand the Tasmanian CAREpoint trial to provide a single access point to community services in the form of a call centre facility. The service has been named "TasCarepoint".
