You can also speak to a Gateway service to discuss any difficulties you may be having, or any concerns that you might feel towards the well-being of a child you know.

Contact number for Gateway Services: 1800 171 233

From 9am-5pm Monday – Friday, this number will divert you to your regional Gateway Services office.

North West Gateway is run by Mission Australia

Northern Gateway is run by Baptcare

South West Gateway is run by Baptcare

South East Gateway is run by Mission Australia

See below for details of what these services do.

In addition, there is a national telephone counselling service for stressed parents and carers available 24 hours a day:-

Child Abuse Prevention Services (CAPS) - Telephone: 1800 688 009
What to these services do?

**Child Protection Services**

**Intake Services**

Intake practitioners do most of their work via the telephone or email. It is not a face-to-face service and staff from Intake do not go out and see clients.

Intake is the ‘entry point’ for the statutory child protection service in Tasmania and staff receive enquiries and reports (‘notifications’) made during business hours Monday to Friday.

Outside normal working hours, calls to the Intake number are automatically switched through to a limited emergency after hours service for urgent child protection notifications or serious issues affecting children in care only. As the after hours emergency service is limited, it is highly recommended that contact regarding the care and safety of children is made through Intake during business hours.

**Response Services**

Response teams receive notifications assessed at Intake as requiring face-to-face follow-up and an investigation. Staff in Response also provide short term protective intervention, which may include application to the Court for legal orders where necessary.

**Case Management Services**

Where longer-term protective intervention is required, responsibility for planning to meet the best interests of the child is transferred to members of one of the Case Management teams.

**Out of Home Care and Adoptions Services**

These services provide support to children in need of placement away from their birth family through the recruitment, training and support to carers and collaborative work with the Response and Case Management teams.
