

# COVID-19 CASE AND OUTBREAK MANAGEMENT – KEY ACTIVITIES FOR PRIORITY SETTINGS

COVID-19

2

## RESPOND

ONE OR MORE CONFIRMED CASES

### INFORM AND MONITOR

Provide a description of the facility/setting and a list of potential contacts (for contact tracing) to Public Health Services

Activate your internal outbreak response team and join the outbreak management coordination team

Inform key stakeholders and place outbreak signage

Monitor outbreak progress

### MANAGE CASES AND CLOSE CONTACTS

Isolate confirmed case (if onsite)

Quarantine any close contacts (if onsite) when identified by Public Health Services

Facilitate access to healthcare and testing

Provide support and essential supplies

### ENHANCE INFECTION CONTROL

Restrict entry, limit movement within the facility/setting and limit communal activities

Clean contaminated areas

Increase monitoring for respiratory illness and facilitate access to testing

### FACILITY MANAGEMENT

Continue to provide essential services

Implement measures for surge capacity and staff contingency

**IMPLEMENT FURTHER RESPONSE MEASURES AS NEEDED**
