

Attachment I: Tasmanian Alcohol Action Framework – Report against 2011 Annual Implementation Plan

Government: Key Strategy I - Changing the drinking culture in Tasmania							
Key Agencies	Key Action Area (of the Framework)	Intended Actions	Key Target for Activity during the period	Timeframe / Term for action	How will achievements be measured (KPIs)	Progress Report / Report of Achievements	Partners (Who else is involved?)
Department of Police and Emergency Management	a. Developing social marketing and community-based campaigns to promote responsible alcohol consumption, effective harm-reduction strategies (such as legislative amendments, promoting the new NHMRC Alcohol Guidelines, the drink driving and driver education campaigns); and the responsibilities of the community, individuals and licensees (including targeted community education strategies for groups at greater risk of harm).	<p><u><i>Sale and Supply of Alcohol to Youths (Police Offences Act 1935)</i></u></p> <p>Dissemination of brochures and posters concerning legislation to regulate the supply of alcohol to persons under the age of 18 years, on private property.</p>	<p>Tasmanian Government, Catholic and Independent Schools and Colleges</p> <p>Liquor outlets (on and off licences)</p> <p>Parents/ guardians</p>	Annual campaign	Report on activity	<p>Department of Police and Emergency Management designed and distributed posters and pamphlets to schools, community groups, and <i>Service Tasmania</i>, and advertised in the three local newspapers to advise the public of the <i>Sale and Supply of Alcohol to Youths (Police Offences Act 1935)</i> legislation. Posters and pamphlets were also distributed to all police stations.</p>	<p>Tasmanian Government, Catholic and Independent Schools and Colleges</p> <p>Department of Treasury – Liquor and Gaming Branch</p>
		<p><u>Police-in-Schools Program</u></p> <p>Involvement with school-based driver education sessions in accordance with school curriculum and identified needs. Police focus on driving and the law.</p>	<p>Tasmanian Government School and College students</p> <p>Parents/ guardians</p>	Ongoing	Report on activity	<p>Tasmania Police undertook a range of school-based alcohol-related presentations across all Geographic Districts, including:</p> <ul style="list-style-type: none"> - Delivering educational presentations to students in the Southern region as part of the Rotary Youth Driver Awareness program. - Providing 'Drive' DVD presentations to Don College secondary school students. The DVD highlights local stories relating to drink/drug driving, inattention and hooning. - Assisting in the production of a film as part of the Big hART program, at Wynyard High School. The film focuses on young people and their access to and consumption of alcohol. The film formed part of the 'Smashed Film Festival' featuring 12 short films on alcohol-related issues. - Participating with schools in the Burnie region in the iPARTY Project. - Providing presentations in the Southern region that focus on the harms associated with alcohol misuse to schools and other groups, including the Tasmanian branch of Scouts Australia. - Meeting with students and parents on the North West Coast, to provide advice regarding the holding of end-of-year functions and the harm associated with alcohol use. 	<p>Tasmanian Government Schools and Colleges</p> <p>Department of Infrastructure, Energy and Resources</p>

Government: Key Strategy I - Changing the drinking culture in Tasmania

Key Agencies	Key Action Area (of the Framework)	Intended Actions	Key Target for Activity during the period	Timeframe / Term for action	How will achievements be measured (KPIs)	Progress Report / Report of Achievements	Partners (Who else is involved?)
Department of Police and Emergency Management	a. Developing social marketing and community-based campaigns to promote responsible alcohol consumption, effective harm-reduction strategies... (Continued)	Police-in-Schools Program (Continued)				- Developing the Good Mates Guide social marketing campaign. This initiative aimed to reduce alcohol-fuelled violence by providing the 18-30 years target group with practical advice to avoid becoming a victim. As part of the program a free iPhone application called Mate Minder was developed, to promote the concept of looking after yourself and your mates. The application provides the location of an individual and their mates on a GPS map. The Campaign was promoted on television and radio, at sporting events and clubs, on public transport, and on websites.	
Department of Health and Human Services - Population Health	a. Developing social marketing and community-based campaigns to promote responsible alcohol consumption, effective harm-reduction strategies (such as legislative amendments, promoting the new NHMRC Alcohol Guidelines, the drink driving and driver education campaigns); and the responsibilities of the community, individuals and licensees (including targeted community education strategies for groups at greater risk of harm).	Explore voluntary labelling of wines with warnings regarding <i>not drinking during pregnancy</i> , with vigneron in Tasmania.	Consultation with wine industry peak body and local wine industry representatives	2010-2011	Number of vignerons that agree to voluntarily label their product with not drinking during pregnancy warnings	The exploration with local wine makers and Wine Tasmania of the voluntary labelling of wines with health warnings awaits a final decision on mandatory labelling associated with National Food Labelling Law and Policy Review. Wider social marketing and community based campaigns are unable to be progressed at the current time due to budgetary constraints across the Department of Health and Human Services and in Population Health.	Local Wine Makers Wine Tasmania
Department of Economic Development, Tourism and the Arts - Sport and Recreation Department of Police and Emergency Management Department of Treasury and Finance - Liquor and Gaming Branch	a. Developing social marketing and community-based campaigns to promote responsible alcohol consumption, effective harm-reduction strategies (such as legislative amendments, promoting the new NHMRC Alcohol Guidelines, the drink driving and driver education campaigns); and the responsibilities of the community, individuals and licensees (including targeted community education strategies for groups at greater risk of harm).	<u>Industry partnerships</u> Working with key stakeholders in the liquor industry to develop and maintain alcohol-related harm reduction strategies. These include: - Burnie Liquor Accord. - PubWatch. - Lock-outs.	Licensees Tasmanian Hospitality Association Local Government	Ongoing	Report on activity	The Department of Economic Development, Tourism and the Arts have been working with key stakeholders including the Tasmanian Hospitality Association and the various Liquor Accords to address alcohol-related anti-social behaviour. Liquor Accords is supported by Tasmania Police and the Liquor and Gaming Branch. A steering committee comprising these Agencies and the Tasmanian Hospitality Association is overseeing the Liquor Accords initiative including: - Obtaining independent legal advice concerning the legal implications in the handling of patrons' personal information, around potential defamation action and privacy considerations.	Tasmanian Hospitality Association Local Government Councils Licensees Local Government Association of Tasmania

Key Agencies	Key Action Area (of the Framework)	Intended Actions	Key Target for Activity during the period	Timeframe / Term for action	How will achievements be measured (KPIs)	Progress Report / Report of Achievements	Partners (Who else is involved?)
Department of Education	h. Developing strategies and programs for enhancement of evidence-based school alcohol education within a schools-based alcohol policy context.	Promotion of evidence-based/ broad-based school drug education strategies for teachers; promotion of new initiatives/ research and resources to all teachers in accordance with key actions and linking activities with the Tasmanian Health and Wellbeing curriculum.	All teachers	June 2012	Teacher evaluations where applicable	<p>Opportunities were provided for all schools and teachers state-wide to link activities with the Tasmanian Health and Wellbeing curriculum.</p> <p>Positive comments from participants suggest that evidence-based resources and modelling of strategies to support the Tasmanian curriculum were useful.</p> <p>NB: The Department of Education, Employment and Workplace Relations has ceased distributing national school education resources.</p> <p>The activity will not be continuing in 2012. However, there is an intention to re-vamp the existing resources located in all schools for distribution in 2012.</p> <p>Schools have been involved in promoting the new parent support initiative- www.parentingstrategies.net/.</p>	Department of Health and Human Services

Government: Key Strategy 2 - An effective system for controlling the supply of alcohol in Tasmania

Key Agencies	Key Action Area (of the Framework)	Intended Actions	Key Target for Activity during the period	Timeframe / Term for action	How will achievements be measured (KPIs)	Progress Report / Report of Achievements	Partners (Who else is involved?)
Department of Health and Human Services – Population Health	a. Reviewing legislation to ensure there is appropriate and consistent legislative and regulatory framework to support the control and supply of alcohol, with an effective and systematic compliance enforcement regime, including mechanisms to deal with complaints about licensee activities and breaches in a timely, appropriate and transparent manner.	Commence processes to introduce health warnings to deter the consumption of alcohol during pregnancy at point of sale of alcohol in licensed premises in Tasmania – by way of a Guideline issued under the <i>Public Health Act 1997</i> .	Legislative framework	2011-2012	Report of outcomes to Inter Agency Working Group on Drugs (IAWGD) and Government; Reduction of prevalence of alcohol use during pregnancy as identified through the Tasmanian Peri Natal Data Set.	Action on this issue has been dependent upon the Commonwealth's discussion of the mandatory labelling of alcohol with pregnancy health warnings across Australia. Discussions continuing.	Department of Health and Human Services Executive IAWGD member organisations Department Health and Human Services -Disability, Child, Youth and Family Services Key stakeholders
		Investigate and undertake the further strengthening of the <i>Public Health Act 1997</i> in relation to alcohol.	Legislative framework	2012 – 2014	Appropriate outcomes measurement will be identified as part of the process.	This key action area is being implemented by the IAWGD and the Alcohol Advisory Group of which Population Health has active membership. An Alcohol Legislative Scoping Project has been commenced and a focus on the <i>Public Health Act</i> forms a part of the project. This project will continue into 2012.	Department of Health and Human Services Executive IAWGD member organisations Other Key stakeholders
Department of Police and Emergency Management	a. Reviewing legislation to ensure there is appropriate and consistent legislative and regulatory framework to support the control and supply of alcohol, with an effective and systematic compliance enforcement regime, including mechanisms to deal with complaints about licensee activities and breaches in a timely, appropriate and transparent manner.	Provide Responsible Service of Alcohol training to Tasmania Police in Licensing and Public Order Response Team positions to ensure they have the appropriate knowledge to enforce the liquor licensing laws.	Tasmania Police officers Legislative framework	Ongoing	Report on activity	A number of Tasmania Police officers have undertaken Responsible Service of Alcohol training to enhance their knowledge of liquor licensing requirements.	

Government: Key Strategy 2 - An effective system for controlling the supply of alcohol in Tasmania

Key Agencies	Key Action Area (of the Framework)	Intended Actions	Key Target for Activity during the period	Timeframe / Term for action	How will achievements be measured (KPIs)	Progress Report / Report of Achievements	Partners (Who else is involved?)
Department of Police and Emergency Management	a. Reviewing legislation to ensure there is appropriate and consistent legislative and regulatory framework to support the control and supply of alcohol, with an effective and systematic compliance enforcement regime, including mechanisms to deal with complaints about licensee activities and breaches in a timely, appropriate and transparent manner.	Ongoing Departmental review of liquor licensing legislation to ensure Tasmania Police has appropriate capacity to deal with a range of alcohol-related issues.	Legislative framework	Ongoing	Reporting of legislative amendments, and suggested amendments	Department of Police and Emergency Management identified a number of potential amendments to the <i>Liquor Licensing Act 1990</i> and has provided advice to the Liquor and Gaming Branch. The Liquor and Gaming Branch has advised that a review of the Act is being progressed. The Senior Liquor Licensing Officers Committee was established to formulate discussion on alcohol and liquor licensing-related issues.	Department of Treasury – Liquor and Gaming Branch
		Enforcement of liquor licensing laws including: - Current Responsible Service of Alcohol provisions; and - Responsible service of alcohol to young people in private settings, under the <i>Sale and Supply of Alcohol to Youths (Police Offences Act 1935)</i> legislation.	Licensed premises Adults inappropriately supplying alcohol to persons under the age of 18 years	Ongoing continuous and targeted operations Ongoing	Number of visits to licensed premises The annual number of venues identified breaching RSA and licensing requirements Number of Infringement notices issued and/ or fines and prosecutions for serious offences	The Tasmania Police Public Order Response Divisions conducted 7,644 visits to licensed premises, to ensure liquor licensing laws were being appropriately adhered to.	Department of Treasury – Liquor and Gaming Branch Licensees Tasmanian Hospitality Association Department of Justice
Department of Treasury and Finance – Intergovernment and Financial Policy	a. Reviewing legislation to ensure there is appropriate and consistent legislative and regulatory framework to support the control and supply of alcohol, with an effective and systematic compliance enforcement regime, including mechanisms to deal with complaints about licensee activities and breaches in a timely, appropriate and transparent manner.	Review the <i>Liquor Licensing Act 1990</i> to ensure that the regulatory framework contained in the Act is efficient and effective in regulating the supply of alcohol in Tasmania.	Legislative framework	12 months	A review of the Act is completed and reported to IAWGD and Government	Intergovernment and Financial Policy has consulted with Liquor and Gaming Branch and Department of Police and Emergency Management and is conducting inter-jurisdictional research on liquor licensing legislation to reduce alcohol-related harm, focusing on complaints mechanisms, compliance and enforcement regimes where it is proposed that a number of licensee obligations be converted to offences. A consultation paper is currently being prepared to receive input from industry and agency stakeholders on proposed amendments, which will then be finalised once the Liquor Legislation Review Scoping Paper is complete. Prevention of foetal exposure to alcohol through the work and active membership of the Prevention of Exposure to Alcohol (PEA) Foetal Alcohol Spectrum Disorder (FASD) Taskforce.	Pregnant women, their family and friendship networks; those planning a pregnancy and breastfeeding mothers	Ongoing	Reduction of prevalence of alcohol use during pregnancy identified through the Tasmanian Peri Natal Data Set.	<p>Population Health continues to be a key partner in the Prevention of Exposure to Alcohol FASD Taskforce. The raising of awareness of FASD and the training of professionals is a focus. An FASD 'Growing Awareness' Conference will be auspiced by key partners of the Taskforce.</p> <p>The issue of the use of alcohol whilst pregnant is being incorporated where appropriate, into programs aimed at for example, the workplace, and women's health. At the national level, Population Health has active membership on the National (Australian Population Health Development Principal Committee) FASD Monograph Working Group.</p> <p>The work around FASD and the Taskforce will continue into 2012.</p>	<p>Drug Education Network</p> <p>Members of the PEA FASD Taskforce</p>

Government: Key Strategy 3 - Providing effective interventions to deal with and prevent alcohol-related harm

Key Agencies	Key Action Area (of the Framework)	Intended Actions	Key Target for Activity during the period	Timeframe / Term for action	How will achievements be measured (KPIs)	Progress Report / Report of Achievements	Partners (Who else is involved?)
Department of Health and Human Services - Population Health	b. Establishing appropriate prevention and intervention strategies targeting high-risk groups and high-risk behaviours.	Integrate actions specific to the prevention of alcohol harms in all relevant aspects of the Public and Population Health agenda.	Workplace health and wellbeing programs Women's health Men's health Other key areas of Population Health action	Ongoing	Adoption of alcohol specific measures in relevant Public and Population Health programs	Population Health's links and contributions to the aims of the PPEI Framework rest with the "Healthy Tasmania" agenda. This agenda aims to address the social determinants of health across the community. A Ministers Advisory Council and an Interagency Working Group on Health and Wellbeing are to be established to progress the agenda. This work will continue into 2012.	Public Health Population Health Population and Health Priorities
Department of Health and Human Services - Statewide and Mental Health Services, Alcohol and Drug Services	b. Establishing appropriate prevention and intervention strategies targeting high-risk groups and high-risk behaviours.	Continued development of specialist treatment services in the State, particularly those that target young people (across government and the community sector).	Treatment services Young people	Ongoing	Treatment episodes	Alcohol and Drug Services continues to work closely with specialist youth services to further develop prevention and intervention strategies for young people. Additional funding was provided to Government and community sector specialist alcohol and drug youth services. Alcohol and Drug Services is reviewing opportunities to negotiate with specialist education network organisation to establish a work plan that addresses priorities for the State and complements the ATOD PPEI Strategy.	Community Sector Organisations
		Establish an evidence-based framework for the provision of specialist services for young people in Tasmania.	Treatment services Young people	June 2012	Established treatment framework and guidelines	In progress. The initial discussion paper prompted significant reshaping of the Youth Framework to be more clinical focus, for use when supporting young people who are affected by alcohol and other drug use. A revised draft of the Framework is being developed and is subject to further consultation prior to its finalisation. A youth specific clinical assessment tool has been developed and is ready to commence trial within Alcohol and Drug Services in early 2012.	

Government: Key Strategy 3 - Providing effective interventions to deal with and prevent alcohol-related harm

Key Agencies	Key Action Area (of the Framework)	Intended Actions	Key Target for Activity during the period	Timeframe / Term for action	How will achievements be measured (KPIs)	Progress Report / Report of Achievements	Partners (Who else is involved?)
Department of Health and Human Services - Statewide and Mental Health Services, Alcohol and Drug Services	b. Establishing appropriate prevention and intervention strategies targeting high-risk groups and high-risk behaviours.	Implementation of evidence-based assessment process for Alcohol and Drug Services clients - AUDIT as part of assessment process.	Treatment services	Ongoing	All ongoing clients are assessed using the AUDIT.	In mid-2010 Alcohol and Drug Services introduced a new Statewide Clinical Assessment Tool (CAT), which incorporates AUDIT, to improve assessment, risk management and the delivery of brief interventions. In the first quarter of 2011 the service reviewed, revised and adopted the new improved CAT and it is being utilised across all Alcohol and Drug Services service areas.	
		Develop, implement and evaluate the Tasmanian Early Intervention Pilot Program (EIPP) to refer young people under the age of 18 who have committed an offence involving alcohol (and their parents/ guardian) to Alcohol and Drug Services for assessment and information and education sessions.	Young people under the age of 18 who have committed an offence involving alcohol (and their parents/ guardian)	To June 2012	Number of: young people referred assessments undertaken interventions (and type) Qualitative analysis of alcohol behaviour and attitude Evaluation to be undertaken in last year Report (and recommendations) to Government	Under Option 1 of the program, Tasmania Police officers can issue the young person with a Youth Caution Action Notice or under Option 2, they can issue a formal caution which includes referral to an Alcohol and Drug Services Youth Worker for an alcohol information session. Since the commencement of the pilot program in April 2011 to November 2011, Alcohol and Drug Services have: - received 18 referrals and attended 14 cautions; - undertaken 12 brief interventions and 1 extended brief intervention with 12 completions under Option 2; and - received 2 referrals for option 1 with no completions. The Alcohol and Drug Services is in discussion with Tasmania Police to look at ways to enhance the program and increase referral rates.	Funded by the Commonwealth Government under the National Binge Drinking Strategy Department of Police and Emergency Management
Department of Police and Emergency Management	b. Establishing appropriate prevention and intervention strategies targeting high-risk groups and high-risk behaviours.	<i>Inter-Agency Support Teams (IASTs)</i> - provision of support to 'at-risk' children, young people and their families in relation to issues, including alcohol and other drugs use.	Children, young people and their families that are, or are 'at-risk' of offending	Ongoing	Number of persons being case-managed by IASTs IAST evaluation (planned for 2010/11)	- Approximately 270 persons are currently being case-managed through the IAST process - An internal evaluation of the IAST is currently being undertaken by Department of Police and Emergency Management.	Department of Health and Human Services Department of Education Local Government Councils

Government: Key Strategy 3 - Providing effective interventions to deal with and prevent alcohol-related harm

Key Agencies	Key Action Area (of the Framework)	Intended Actions	Key Target for Activity during the period	Timeframe / Term for action	How will achievements be measured (KPIs)	Progress Report / Report of Achievements	Partners (Who else is involved?)
Department of Infrastructure, Energy and Resource - Land Transport Safety Division	b. Establishing appropriate prevention and intervention strategies targeting high-risk groups and high-risk behaviours.	Participation in annual events such as Agfest and the Falls Festival, including the provision of free breath testing. Involvement in these events enables engagement with the community and the furthering of public education.	High-risk road user groups (e.g. young males) Drink drivers	Ongoing	Number of motorists exceeding 0.05% blood alcohol content compared with total number tested.	<p>The Road Safety Advisory Council had a stall in the Government's 'Safer Tasmania' tent at Agfest. The promotion was not strictly alcohol-related but general information about road safety.</p> <p>There was also a stall at Falls Festival 2010/11 on New Year's Eve and New Year's Day at which volunteers from the general public provided voluntary breath testing. Most of the Falls attendees are the most-at-risk drivers who are aged between 17 and 25. About 100 tested on New Year's Eve and 2500 on New Year's Day. Volunteers told participant about alcohol consumption and blood alcohol content.</p> <p>Voluntary breath testing was provided at the Taste of Tasmania, by casual staff employed by the Department of Infrastructure, Energy and Resources. The general public were given verbal information about alcohol consumption and breath test reading. 850 tests were conducted.</p>	<p>Road Safety Advisory Council</p> <p>Motor Accident Insurance Board</p> <p>Department of Police and Emergency Management</p>
		Through the Road Safety Advisory Council, continue to target high risk road user groups and behaviours (i.e. drink driving) through education campaigns.	High-risk road user groups (e.g. young males) Drink drivers	Ongoing	<p>Reduce the number of claims where combined medical/hospital costs exceed \$2,000 (indexed at CPI)</p> <p>Reduce the number of claims lodged by 18 - 25 year old drivers/riders</p> <p>Reduce the number of claims lodged with the Motor Accident Insurance Board</p> <p>Number of motorists exceeding 0.05% blood alcohol content compared with total number tested.</p>	<p>Throughout 2011 there were television, radio and newspaper advertisements advertising the consequences of being caught drink driving. The peak periods of the advertisements were during long weekends and the football finals season. An effective measure of the campaign's impact is not yet available.</p>	<p>Road Safety Advisory Council</p> <p>Motor Accident Insurance Board</p> <p>Department of Police and Emergency Management</p>

Government: Key Strategy 3 - Providing effective interventions to deal with and prevent alcohol-related harm

Key Agencies	Key Action Area (of the Framework)	Intended Actions	Key Target for Activity during the period	Timeframe / Term for action	How will achievements be measured (KPIs)	Progress Report / Report of Achievements	Partners (Who else is involved?)
Department of Health and Human Services - Population Health	g. Improving and encouraging service system and workforce development responses that operate across the primary, secondary and tertiary treatment continuum. This means increasing the capacity of the service system to undertake promotion, prevention and early intervention strategies and to undertake alcohol-related harm screening and risk assessment. This also means enhanced integration of alcohol and other drug interventions within primary health care, correctional primary health and other relevant services to improve linkages and referral mechanisms.	Enhance the collection and analysis of population health data related to alcohol: <ul style="list-style-type: none"> - Pursue the further analysis of Australian Secondary School Alcohol and Drug survey data as trend analysis. - Pursue the further analysis of the Tasmanian perinatal data as trend analysis from a population health perspective. 	Research and Data	Ongoing	Production of trend analysis Fact Sheets based on Australian Secondary School Alcohol and Drug survey data Production of trend analysis Fact Sheets based on Tasmanian Perinatal data	Population Health has completed the "Tasmanian Alcohol Trends 2011" Fact Sheet. Tasmania continues to monitor a number of alcohol related indicators. Population Health contributes to the progress of a number of national data issues around alcohol including active membership of the National Advisory Committee of the 'National Alcohol Sales Data Project' (Also relevant to Key Strategy 2) and the NHMRC Alcohol Data Linkage Project. This work will continue into 2012.	Epidemiology Unit Population Health
Department of Health and Human Services - Statewide and Mental Health Services, Alcohol and Drug Services	g. Improving and encouraging service system and workforce development responses that operate across the primary, secondary and tertiary treatment continuum. This means increasing the capacity of the service system to undertake promotion, prevention and early intervention strategies and to undertake alcohol-related harm screening and risk assessment. This also means enhanced integration of alcohol and other drug interventions within primary health care, correctional primary health and other relevant services to improve linkages and referral mechanisms.	Implementation of One Intake process within Alcohol and Drug Services South including a collaborative program review multidisciplinary meeting specifically for clients with multiple and complex needs.	Treatment services	May 2011	Process implemented and operating	Alcohol and Drug Services has developed one intake process with the adoption of the Clinical Assessment Tool and regular use of multidisciplinary team meetings to determine pathways for client care.	Department Health and Human Services - Mental Health Services Other Health and Human Services areas
		Establishment of a capable, effective and sustainable workforce for the ATOD treatment sector in Tasmania - Establish a Workforce Development Strategy for the Sector in Tasmania.	Treatment services	September 2011	Strategy finalised and implemented	The development of a Workforce Development Strategy by the Alcohol and Drug Services has been delayed due to staffing issues. Recruitment is currently underway to fill the two Workforce Development Officer positions, which will enable work to recommence. ATDC was funded to employ a Workforce Development Officer to undertake workforce development activities for the ATOD sector, including providing input towards the development of a sector-wide workforce development strategy. This has led to a comprehensive workforce survey being undertaken. A report of the survey findings was released by ATDC in August 2011.	Community Sector Organisations
